RE: Approval to Decommission Specific Monitoring Wells  
Clean Harbors Wichita Facility, 2549 New York Ave, Wichita Kansas  
RCRA ID # KSD007246846

Dear Mr. Stephenson:

This letter is in response to your January 24, 2014 request to decommission eleven ground water monitoring wells at the facility referenced above. These wells are being decommissioned to facilitate implementation of a thermal treatment interim remedial measure (IRM) at the site.

This request is conditionally approved by the U.S. Environmental Protection Agency with the requirement that Clean Harbors will re-install monitoring wells at appropriate locations following completion of the IRM.

Please submit copies of the well decommissioning forms to me for inclusion in the EPA site file.

If you have any questions about this conditional approval, please call me at (913) 551-7141.

Sincerely,

Christine R. Jump, L.G.
